* Create a shortcut with one mouse click* Add or delete shortcut from the taskbar* Easily switch between multiple copies of Windows* See hotkeys in real-time* Create new shortcut with one click* Create folders and shortcuts KeyMacro is a tool to create shortcuts, create folders, and to switch between multiple copies of Windows. It is one of the first and most popular freeware that implements context menus to add shortcuts to the taskbar. To use it, you only need to select the items you want to create a shortcut for. Then, press the shortcut button located in the system tray to perform the action, and KeyMacro will do the rest. For example, in order to create a shortcut to the Skype, you only need to select Skype and press the button to create it. KeyMacro also features a checkbox that allows you to enable or disable the taskbar buttons you want to use. To do so, you can either drag and drop the desired items into the taskbar or click the shortcut button and choose the buttons you want to use. In addition, the software provides a list with all hotkeys you have defined in KeyMacro. You can easily switch to a different window by pressing the Fn key and the window you want to open. KeyMacro is a simple tool, but it can create different things. It is a great tool to switch between multiple copies of Windows and create shortcuts. It is easy to use, and users can quickly create shortcuts and folders to organize their files. "Haitoku" is a great free anime management tool, which provides users with information and connections regarding anime. Through the anime management tool, users will be able to keep their anime and manga series sorted and organized. The anime series information can be seen from the summary page (where user can view the first 15 words and the plot synopsis), anime episode summaries, anime start-ups, anime-related people, anime release years, popular titles, and many other details. There is also an integrated viewer for each anime to help users watch and download anime episodes. You can use the anime management tool to keep track of your anime/manga series by sorting them into favorite, series, dropped, completed, dropped or in progress. You can also set reminders for each anime so that you will not forget to continue your anime series. MyAnimeList Description: "MyAnimeList" is a website which allows you to find, manage, and watch anime online. With the MyAnimeList website, you can get information about anime and manga, help you find which anime to watch, share your anime with others and also share your anime to your favorite social networking sites such as Facebook, Twitter and Google+. From the website, you can find out details about your favorite anime such as synopsis, special features and cast, descriptions, who watched the anime, what are other users saying about the anime, and watch the anime online at many different websites or download it on your smart device such as a tablet or smart phone. You can also discover which is the upcoming anime you might want to watch, also discover other anime related information. With the MyAnimeList website, you will be able to enjoy the anime you want to watch and are able to share it with your friends and family. Besides the website, there are also mobile apps for iOS and Android which allow you to view the anime on the go, all at the push of a button. Another awesome feature for the website is "MyAnimeList Talk" where you can interact with your favorite anime characters via a Skype-like window. "MyAnimeList Talk" can be found in the website and the mobile apps. You can also find out information about your favorite anime and read the thoughts and views of others regarding the anime you are watching. Availability: The MyAnimeList website can be accessed at [How to get started using "MyAnimeList"](#): You can sign up for a free "MyAnimeList" account at [You can find out information about your anime and manga by selecting the anime/manga series that you would like to know more information about.](#) You can watch the anime online at many different websites or
