Q: remove duplicates in multidimensional array I'm trying to unset the value in a multidimensional array. But
my array got repeated values. My database table: id | name ----- 1 | blue 2 | red 3 |
blue 4 | green 5 | red 6 | blue 7 | green 8 | red 9 | blue 10 | red 11 | green And this is my code: \$sql
= mysql_query("SELECT * FROM table_name"); \$array = array(); while (\$row =
mysql_fetch_array(\$sql)) { \$name = \$row['name']; \$color = \$row['color'];
array_push(\$array,array(\$name,\$color)); } \$finalArray = array(); foreach(\$array as \$entry){
\$finalArray[] = \$entry; } print_r(\$finalArray); I want the result: Array ([0] => Array ([0] =>
blue [1] => blue) 595f342e71
